OF COSMETIC CHEMISTS

Ulf Åkerström

VP & Chief Innovation Officer,
Skinome Research AB

Preservative Free Systems In Cosmetics

Ulf Åkerström is one of Sweden's leading experts in skin research and the development of both medical and cosmetic skincare products.

His expertise lies in the design and formulation of skin barrier-strengthening and microbiome-modulating skincare and sun care products. He has extensive experience in developing evidence-based formulations that strengthen the skin barrier, promote a balanced skin microbiome, and improve skin health through carefully selected ingredients and clinically validated performance.
